Election/Restrictions

1. Claims 17 and 18 are drawn to non-statutory subject matter in addition it is not clear if the claims are drawn to a method of treating or method of making a medicament. Hence, these claims are not included in the election/restriction requirement.

In the event Applicants do act on these claims they will be subject to a statutory rejection under 35 USC § 101.

2. This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows: the forty sequences identified as SEQ ID NO: 2-SEQ ID NO: 41.

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species, MPEP § 809.02(a).
